## QUANDO O OPTIMO INIMIGO DO BOM PEQUENAS SOLUÇÕES ajudam a resolver grandes

Timor Leste, é um país jovem e em vias de desenvolvimento, que passou por um processo terrível de Genocídio e destruição. As marcas do passado ainda recente demorar muitos anos a sarar.

A reconstrução tem vindo a ser levada a cabo pelos seus dirigentes de uma forma absolutamente

TIMOR 2011 ATÉ 2030, está magistralmente elaborado e identifica de uma forma clara a situação actual de Timor Leste, as suas necessidades e os objectivos a cumprir, em curto, médio e longo prazo.

Será uma obra Titânica, mas não duvido nem um segundo da determinação, do esclarecimento e da capacidade de realização do Povo Timorense e seus dirigentes.

Proporcione-se-lhe os meios, eles curarão as feridas, cuidarao do seu Povo e continuarão sendo um bom exemplo para o Mundo.

Este documento em formato de Newsletter, é uma pequena homenagem ao Povo Timorense, meus amigos, irmãos de convivência diária, a quem gostaria de passar, conhecimento, experiência, cultura, incentivo ao estudo, solidariedade, autoestima, não num sentido de compensação, mas sim de afinidade e carinho.

Tem ainda este documento o objectivo, de expor algumas ideias e sugestões, que podem ajudar na resolução de alguns problemas que Timor apresenta, e que são comuns a outros povos do mundo, onde muitas organizações continuam a experimentar novas soluções.

O que aqui se trata nao é o estudo exaustivo numa especialidade, mas sim algumas ideias simples de cariz comunitário e cooperativo, que se podem pôr em prática com pouco investimento e grande
